This badge was issued to JOSE ALEXANDER LEON SUAREZ

Date issued: November 07, 2026

Verify

Linux Essentials

Issued by Cisco

Cisco, in collaboration with NDG, verifies that the learner has knowledge of open vs closed source applications, basic hardware concepts, Linux OS components, command line usage, file management, creating/restoring backups, system security, user/group permissions, and simple scripting. Learner has completed 24 prescriptive labs using a real Linux OS on a virtual machine interacting with the Linux operating system and build on their skills and knowledge as they progress through the course.
